

2009 Cygolite Retail Pricing

NEW TRION 600

MSRP \$599.98

HID Brightness with wireless all in one power design.

Features:

- 600 Lumens
- 3rd generation high brightness L.E.D.s
- Light output Equiv to HID Systems
- 50,000 hr bulb life
- 2.5-12 HR Hi/Low run time
- 4 light levels
- 3 level battery indicator
- 3.7 hr quick charge
- Helmet and QR Handlebar mount
- 100,000 hr bulb life, NiMH Battery
- **Only 280 gm weight**

Part # 08-0942

NEW MIGHTY CROSS

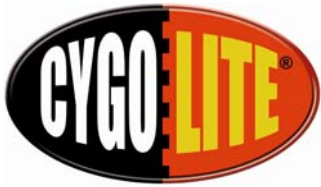

MSRP \$379.98

Part # 08-0929

Features:

- Bright 350 Lumen bulbs
- Equivalent to 30 watts
- Exclusive crossfire beam design
- for wider light spray
- 3.5-17 HR Hi/Low run time
- 6 light settings
- 3 level battery indicator
- 4 hr quick charge
- Helmet and QR Handlebar mount
- Lion battery
- **Only 240 gram weight**

2009 Cygolite Retail Pricing

TRIDENT X LED Li-ion XTRA

MSRP \$599.98

Features:

- 600 Lumens
- Triple High Intensity L.E.D.s
- Light output Equiv to HID Systems
- Cross Fire Technology with angled beams
- 5-120 HR Hi/Low run time
- 4 light levels
- 3 level battery indicator
- 7 hr quick charge
- Helmet and QR Handlebar mount
- 100,000 hr bulb life, NiMH Battery
- **385 gm weight**

Part # 08-0943

TRIDENT X LED LI-ION

MSRP \$549.98

Super bright Lightweight system from Cygolite!

3 LED Bulbs for long life and durability!

Features:

- 600 Lumens
- Triple High Intensity L.E.D.s
- Light output Equiv to HID Systems
- Cross Fire Technology with angled beams
- 2.5-12 HR Hi/Low run time
- 4 light levels
- 3 level battery indicator
- 3.7 hr quick charge
- Helmet and QR Handlebar mount
- 100,000 hr bulb life, NiMH Battery
- **Only 255gm**

Part # 08-0945

TRIDENT X LED NiMH

MSRP \$519.98

Same great light!

A little heavier battery.

Features:

- 450 Lumens (approx 35 watts)
- Light output Equiv to HID Systems
- 3.5-18 HR Hi/Low run time
- 4 light levels
- 3 level battery indicator
- 4 hr quick charge
- Helmet and QR Handlebar mount
- 100,000 hr bulb life, NiMH Battery

Part # 08-0950

Magazine Reviews

See for yourself why some of the most well-respected critics in the bicycling industry have been raving about CygoLite!

Trion 600

Trion 600 is chosen as "Best of the Best: '09 Interbike SHOW & TELL" by Mountain Bike Action magazine.

"We recently tested the Cygolite TridenX light (December "Thrash Tests") and it looks like the \$399 Trion 600 might trump it with a built-in battery and the ability to use external batteries for additional burn hours.....Can't wait to get one of these on the bar."

- ***Mountain Bike Action (January 2009)***

TridenX LED Li-Ion

"The light bathes the trail in a beautiful white light...the illumination is excellent...This light's small size, light weight and powerful beam make it a great choice for endurance racers as well as serious nighttime trail riders"

- ***Mountain Bike Action (December 2008)***

DualCross (Original)

LEDs conserve energy and increase bulb life (up to 100,000 hours), but they tend to have a narrowly focused light pattern. Cygolite overcomes some of this tendency with the DualCross by crossing the dual LED beams (hence the name) to create a bigger splash of light...Light quantity and quality are excellent for a light in this price range..."

- ***Bicycling***

TridenX LED Li-Ion

"The three-bulb TridenX uses reflectors to throw out a broad swath of light and is powered from a ridiculously small lithium-ion battery. Helmet and handlebar mounts come included, a battery-life indicator lets you know where you stand, and a smart charger tops off dead batteries in 3.7 hours. Total system weight is 295 grams."

- ***Bike***
